

Cozy Nest Academy

Foundational Learning for Homeschool Families

About Our Curriculum

The Cozy Nest Academy Phonics Curriculum is designed to provide a simple, effective, and engaging approach to early reading development. This program focuses on building strong foundational literacy skills through structured phonics instruction, repetition, and visually supportive materials that are easy for both parents and students to follow.

Our goal is to remove the overwhelm often associated with teaching reading and replace it with a clear, step-by-step system that works in real homeschool environments.

Who We Are

Cozy Nest Academy is a veteran-owned educational platform built by and for homeschool families.

As the founder of Cozy Nest Academy, I was homeschooled myself and understand firsthand how challenging it can be to find affordable, high-quality learning materials that are both effective and easy to use. Many families face the same struggle—spending hours searching for resources that are either too expensive, too complicated, or simply not designed with real home learning in mind.

That experience is what inspired the creation of Cozy Nest Academy.

Our Mission

Our mission is simple:

To support the homeschool community by providing accessible, practical, and affordable educational resources

that help children succeed without placing unnecessary stress on parents.

We believe every family should have access to strong learning tools—regardless of budget or background.

What Makes This Different

- Designed specifically for homeschool environments
- Simple, structured, and easy to follow
- Focused on real results, not unnecessary complexity
- Created with both parents and children in mind

Commitment to Families

At Cozy Nest Academy, we are committed to continuing to grow and expand our offerings to better serve homeschool families. This phonics curriculum is just the beginning.

We welcome feedback from families and educators and are always looking to improve our materials to better serve the homeschool community.
